EXCELLEN IN INNOVATION & QUALITY

Next Level innovation fueled by
sound reserch.

 Foreign Stabilizers 

 foreignstabilizers 

Company Profile

Foreign Stabilizers Industries is the brainchild of our founder and chairman, Mr. Dinesh Borad. He envisioned putting Foreign Stabilizers Industries on the national and international map as one of the world's leading additive manufacturers and suppliers, leveraging on three decades of expertise in the chemical industry. Every great journey starts with a small, but an all-important first step. And Foreign Stabilizers Industries took that first step under the visionary leadership of Dinesh Borad in 1992. Today, it operates out of its state-of-the-art facility cum office in Gujarat.

Customer-centric and quality-focused approach, commitment to excellence, superior quality product portfolio, exceptional service, customized solutions at a competitive price and integrity forms the cornerstones of Foreign Stabilizers Industries. Creating customer delight is at the heart of every business initiative we undertake. The company is dedicated to manufacturing and supplying the best quality stabilizers, commodity stabilizer lubricants and metallic stearates used in the making of diversified Poly Vinyl Chloride (PVC) products, to drive customer delight.

Foreign Stabilizers

Grade	Product Name	Appearance	Suggested Applications
FSL-8000	Tetra Basic Lead Sulphate	Off White Fine Powder	Rigid & Plasticized: Pipes, Profiles, Cable Compound etc.
FSL-8001	Tri Basic Lead Sulphate	White Fine Powder	Rigid & Plasticized: Pipes, Profiles, Cable Compound, polymer etc.
FSL-8002	Tri Basic Lead Sulphate	White Fine Powder	Rigid & Plasticized: Pipes, Profiles, Cable Compound etc.
FSL-8003	Tri Basic Lead Sulphate	White Fine Powder	Rigid & Plasticized: Pipes, Profiles, Cable Compound etc.
FSL-8010	Di Basic Lead Sulphate	White Fine Powder	As a Stabilizer Kicker in Pipes Profiles, Cable Compounds etc. .
FSL-8020	Di Basic Lead Sulphate	White Fine Powder	Excellent heat stability and weather resistanc. Used in profiles, Pipes, Cable Compounds etc.
FSL-8030	Di Basic Lead Sulphate	Off White Fine Powder	Good Lubrication at hightemperature operations. Used in Pipes, cables, Flexible Profiles.

Lead Based Commodity Stabilizers

Lead Singles are known to exhibit excellent long term heat stability and outstading electrical properties and extensively used as a heat stabilizers in the PVC formulation. These are available in powder forms, which help the PVC in the extrusion process. Choose Foreign Stabilizers lead-based commodity Stabilizers. Choose complete we peace of mind.

Foreign Stabilizers

Grade	Appearance	Suggested Application
FSL- 2834	Off White Flakes	ISI Pipes,All type of Profile, WPC Foam sheet etc.
FSL- 2844	Off White Flakes	ISI Pipes,All type of Profile, WPC Foam sheet etc.
FSL- 2020	Off White Flakes	All type of ISI and Commercial Pipes.
FSL- 2022	Off White Flakes	ISI Pipes,All type of Profile, WPC Foam sheet etc.
FSL- 2020	Off White Flakes	All type of ISI and Commercial Pipes.
FSL- 2020	Off White Flakes	All type of ISI and Commercial Pipes and Profiles etc.
FSL- 1800	Off White Flakes	All type of PVC Pipes.
FSL- 1861	Off White Flakes	All type of PVC Pipes.
FSL- 1821	Off White Flakes	All type of ISI and Commercial Pipes.
FSL- 1811	Off White Flakes	All type of PVC Pipes.
FSL- 1621	Off White Flakes	All type of PVC Pipes.

Lubricated One Pack Stabilizers

Lubricated One Pack Stabilizers are manufactured with high precision by using standardizes procedures under a controlled environment to deliver superior quality product on time, every time at a competitive price. These are dust-free, easy to use compounds,which reduce the use of lubricant. It should be used just once and that too in less dosage. Choose One Pack Stabilizers to give the leading edge to your Company.

Grade	Appearance	Suggested Application
FS- 4060	White Powder	All Type of Profiles, Cable compound, Hose pipe etc.
FS- 4070	White Powder	All Type of Profiles, Cable compound, Hose pipe etc.
FSL- 4080	White Powder	All Type of Profiles, Cable compound, Hose pipe etc.
FSL- 4090	White Powder	All Type of Profiles, Cable compound, Hose pipe etc.
FSL- 6035	White Powder	All Type of Profiles, Cable compound, Hose pipe etc.
FSL- 6065	White Powder	Economical grade for semi rigid & flexible formulations.
FSL- 3030	White Powder	Specially for Cable compound.
FSL- 3020	White Powder	Specially for Cable compound.
FSL- 3110	White Powder	Shoe compounding for durability and weatherability properties.
FSL- 3120	White Powder	Shoe compounding for durability and weatherability properties.

Non Lubricated One Pack Stabilizers Fine Powder

At Foreign Stabilizers, we manufacture and supply high performance Non-lubricated one pack stabilizers. These are optimum performance on PVC extruders. These are available in powder form. Choose Foreign Stabilizers Non-lubricated One Pack Stabilizers. Choose we complete peace of mind.

Grade	Product Name	Appearance	Suggested Applications
FSL-5060	Super Pack	Powder	UPVC Pipes & ISI Pipe, Cansil Pipe.
FSL-5050	Super Pack	Powder	ISI Pipe & UPVC Pipe, Cansil Pipe.
FSL-5040	Super Pack	Powder	ISI Pipe & Semi ISI Pipe.
FS-9001L	One Pack Lubricant	Powder	Replacement for All individual Internal and external lubricants & Reduce dosage.
FS-9002L	One Pack Lubricant	Powder	Replacement for All individual Internal and external lubricants & Give extra shining
FS-9003L	One Pack Lubricant	Powder	Replacement for All individual Internal and external lubricants & Give extra flow.

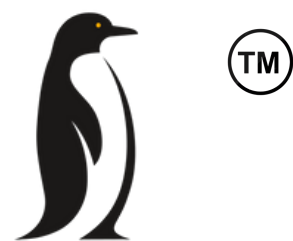

Super Pack

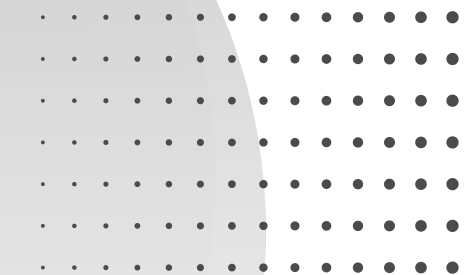

Eliminates the need to measure and mix individual additives, reducing errors and saving time. Consistent Quality: Ensures batch-to-batch uniformity and homogenous mixing, leading to higher quality products

Lubricants

Lubricants are used to reduce shear and fricational heating during the processing of PVC. It helps in reduction in friction heat, reducing melt viscosity which incresses the flow and improved gloss to make it more shining.

Foreign Stabilizers

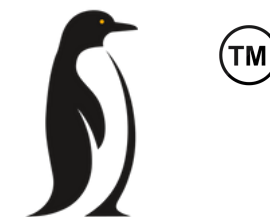

Grade	Product Name	Appearance	Suggested Applications
FS-7001	calcium Stearate	White Super Fine Powder	Excellent Internal & External lubricant with good gelation properties, Also used in Food industry.
FS-7002	calcium Stearate	White Super Fine Powder	Excellent Internal & External lubricant with good gelation properties, Also used in Food industry.
FS-7000	Sodium Stearate	White Super Fine Powder	Used as metal heat treatment and plastic stabilizer. Used in the manufacture of soap detergents and as emulsifiers in cosmetics.
FS-7005	Zinc Stearate	White Super Fine powder	Mould releasing agent & lubricant in rubber and plastic industries. Used in cosmetics too. It gives clarity and weather resistanc
FS-7006	Zinc Stearate	White Super Fine Powder	Mould releasing agent & lubricant in rubber and plastic industries. Used in cosmetics too. It gives clarity and weather resistanc
FS-7100	Lead Stearate	White Super Fine powder	Stabilizer and lubrication in Pipes, cables, Flexible Profile.

Metallic Stearates

Metallic Stearates are excellent lubricants with metals. At Foreign Stabilizers, our in-house manufacturing experts leverage on their experties to manufacture and supply different metallic stearates in powder form. Choose Foreign Stabilizers Matalic Stearates. Choose complete pease of mind.

Foreign Stabilizers

Grade	Use and Application
RT 455	Use LLDPE Roto Mould Powder Ultra white Application UPVC Pipe Profile other Plastic Application.
RT-435	Use LLDPE Roto Mould Powder white and Super White Application UPVC Pipe, Upvc Fitting - profile other plastic application
RT 420	Use LLDPE Roto Mould Powder white and Super White Application UPVC Pipe, Upvc Fitting - profile Other plastic Appliction
R- 401	Use in UPVC Pipe, Conduit Pipe, UPVC Fitting, profile panel other plastic application
R-301	Use in UPVC Pipe, Conduit Pipe - All other plastic application
R-100	Use in UPVC Pipe, Conduit Pipe,PVC pipe - ALL other plastic application
R-101	Use in UPVC Pipe, Conduit Pipe,PVC pipe All - other plastic application
R-103	Use in UPVC Pipe, Conduit Pipe,PVC pipe All- other plastic application

Titanium Dioxide

We are a leading importer and supplier of best quality of titanium dioxide. We deals in more then 8 grades of titanium Dioxide. Our high range of products are best in quality at the leading market price range.

Titanium dioxide is widely used as a white pigment in the world. Titanium Dioxide occurs in nature as the minerals RUTILE. More than Many Tones are used anually for a variety of industrial applications.
